-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1-9, 11 and 12 are rejected under 35 U.S.C. 102(e) as being anticipated by Naghski et al (6,422,761).

Naghski et al discloses, **for claims 1 and 12**, a) means for transmitting optical signals into the plug-in connector; b) at least one mirror (22) coupled to said transmitting means for deflecting light beams at an approximately 90 degrees angle in the plug-in connector; lens system (20) disposed adjacent to said mirror and coupled to said transmitting means, for coupling the light beams into the plug in connector, **for claim 2**, the means for transmitting optical signals comprises a plurality of glass fiber lines, **for claim 3**, the means for transmitting optical signals

Art Unit: 2839

plurality of plastic polymer lines, **for claim 4**, the means for transmitting optical signals comprises a plurality of prisms (prisms are lens also and since the light is deflection is 90 degrees it is considered to be a prism action), wherein said light beams always run within a same optical medium within said plug-in connector, **for claim 5**, two symmetrical halves having a center plane a plane for transmitting optical signals (does not have to be two separate pieces), **for claim 6**, a plug in coupler for coupling said plug-in connector to the circuit board, **for claim 7**, a clip (18) for coupling said plug-in connector to the circuit board, **for claim 8**, a plug in coupler for coupling said plug-in connector to the back plane, **for claim 9**, a clip (18) for coupling said plug-in connector to the back plane, **for claim 11**, a light seal disposed in an in-coupling point of the optical signal into the plug-in connector.

Response to Arguments

3. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.
